

KASAB Activity

What's Needed to Support New Behavior?

Effective professional learning addresses the knowledge, beliefs, skills, attitudes and long-term supports that are necessary to implement and sustain a new practice. What would need to be addressed under each of these areas to support your colleagues' use of alternatives to out-of-school suspension?

What's needed to support staff use of alternatives to OSS?

Add your ideas here

Knowledge	"Awareness building" - insufficient by itself to change behavior	
Attitudes	Beliefs about the value of different strategies	
Skills	Strategies to apply knowledge	
Aspirations	The internal motivation to engage in a practice	
Behaviors	Consistent and refined application of knowledge & skills
